On Wednesday, our grade 11 and 12 students participated in a compelling presentation on road safety delivered by ICBC. Ted Swan, a seasoned paramedic with 34 years of experience, engaged the students with valuable insights into the perils of aggressive driving, as well as the risks associated with driving under the influence of drugs or alcohol. His presentation struck a balance between realism and humor, making it both impactful and enjoyable for the audience. It's crucial that our students take this message to heart, as it holds the key to ensuring their safety on the roads.

On Monday, students had the opportunity to go behind the scenes at Global News, gaining insights into the intricate process of news production. They toured various departments, including editing, production, and the newsroom, where dedicated staff took the time to educate them about their roles and responsibilities.
